

**WING™ balans®**

Design: Peter Opsvik

Wing™ balans® takes up a small amount of space and is easy to fit into existing interiors. It can be placed under a desk or a table. Hard wheels for soft floors. Soft wheels for hard floors.

Customers own fabric: 0,60 x 1,40 m

Leather: 1,1 m²

**Respect for the environment:**

Using environmentally friendly materials and methods is a major priority for Variér®. We also attach importance to ensuring that the production methods are environmentally friendly.

**Materials:**

We use wood from farmed sources harvested using principles of sustainability. All the beech and oak we use comes from Europe. The walnut comes from North America.

**Fabrics and leathers:**

We offer fabrics of high wear resistance and classic appearance supplied by acclaimed European specialists (Kvadrat, Innvik, Gabriel) in more than 200 colours. We offer high quality semi-aniline leathers from European leather merchants applying eco-friendly production methods when developing raw hide into furnishings.

**Cushion:** Polyurethane foam

**Guarantee - 7 years/5 years:**

Variér® offers an extended a 7 years guarantee on all wooden parts and 5 years on mechanical parts to customers who register their products in our product database. Variér's guarantee only covers manufacturing defects and does not include misuse, normal wear and tear and defects caused by exposure to sunlight. The guarantee will not apply if the customer fails to tighten screws as recommended and this results in damage to the piece of furniture

We are created  
to move not  
to sit still

This also reflects our sitting philosophy. We have always focused on developing chairs that by letting you move provide well-being. When you move, you feel good. Both physically and mentally. As long as your body has a choice, it will choose movement over inactivity. Also when sitting.

That's why we have made it our mission to develop chairs based on the movement philosophy. These unique sitting solutions stimulate dynamic and active sitting positions, which in turn provide maximum comfort and well-being while seated.

## WING™ balans®

Wing™ balans® is an unconventional working chair with wheels, swivel and tilt functions, and is optimal for work at high or height adjustable tables e.g. drawing tables. The chair encourages a variety of sitting positions. Adjustable gas lift makes it suited to a range of activities and different table heights.

The angled seat in combination with the leg cushion let you sit upright with the backbone in a natural position. The shoulders and neck are relieved and you are sitting comfortably and can concentrate on your activity.

Seat with rubber washers to give more comfort.

Tilted seat together with leg cushion give sitting positions with a open angle between thigh and torso. This give your spine automatically its natural position. Makes breathing easier and provides well-being whilst seated.

Comes with either hard wheels for soft floors, or soft wheels for hard floors.

Our chairs are designed to make your body strong and healthy. Sitting on traditional static chairs doesn't allow your own muscles to work to keep your body upright. Therefore, the more you sit, the weaker your muscles become. Our chairs inspire you to move freely and make it possible to keep your spine in a natural position.

## SWING ON WHEELS

Wing™ balans®

Leg cushion prevents sliding from the seat. Distance between seat and leg cushion is adjustable.
